02 WALK-IN CLOSETS WARDROBES

Located in Inverigo in the heart of Brianza, Giellesse preserves the care and attention of the artisan know-how continuing to develop its design culture and production technology. Giellesse selects the best raw materials to realize all its proposals and places extreme importance on aesthetics and durability. The wide choice of colors for the lacquers, the best essences and the most trendy fabrics for the upholstery guarantee the highest quality for all Giellesse products.

04 BATHROOM CABINETS AND VANITIES

ALTAMAREA - Bathroom Boutique stands out in the national and international market, thanks to its production of Made in Italy bathroom furniture, appreciated for the originality and sophistication of its collections, attention to details and technical expertise in developing high-quality bathroom furniture.

A new bathroom philosophy: an environment as you have always been dreaming. Design, refinement and handicraft method for a space suitable to you: this is a bathroom Altamarea.

Certification for its 100% Made in Italy production granted by the Institute for the Protection of Italian Manufacturers, is a guarantee of the Italian origin of Altamarea bathroom furniture collections. Similar to a form of traceability within the sector, the code assigned to each purchase and inspections by the certifying body ensure that all manufacturing occurs on Italian soil, including the brand's exclusive models and the first-choice materials used to make them, adopting the most advanced manufacturing skills.

Only in this way it is truly Made in Italy, a guarantee for both the consumer and manufacturer, in a production chain that can be defined as transparent, virtuous and recognised. Altamarea is one of the few Italian companies to have received certification for its 100% Made in Italy production.
